It should be NOGI weight with  $\pm$  2kg accuracy. Important weight checking (**GI**) will take place on tournament. Depending on weight and birth year, fighters will be matched to groups. There is no risk for someone to having "incorrect weight", however we please you to placing the weight as accurate as possible as it will be easier to make estimated groups and thus speed up entire tournament.

Groups matching will be done in a way that kids up to birth year of 2003 will be in groups of similar weight and age.

It SHOULD NOT:

- match kids with age difference 3 years or more (e.g. 2011 and 2008),
- match boys and girls, with exception of birth years 2012 – 2009)

Other exceptions:

If someone should not to any group, (in case of extremely high or low weight), exception can be made after consultation with trainers and parents.

Girls should not fight with boys but in case of too few fighters in groups, they can be merged with either older group, weighter group or boys group - after consultation of Dievčatá by mali with trainers and parents.

Minimal count for groups is 3 fighters. Our best effort is to make groups of 5 fighters, so everyone will have option of 4 fights.

Resulting order will depend on:

1. Number of wins
2. Result of fight between two compared fighters
3. Number of wins before time limit
4. Fight point scores

Juniors ( birth year 1997 – 2002) - Depending of number of fighters, we will decide if they will fight on K.O. system, or they will be matched to groups too. We will make this clear before tournament start.
